MISS BORDEN'S TRIAL

THE NORSEMEN IN NEWPORT.

EXTRA.

2 O'CLOCK.

OUR FLAG'S BIRTHDAY.

**MISS BORDEN'S TRIAL**

**Marshal Hilliard and Mayor Coughlin Witnesses To-Day.**

**Evidence That Lizzie Aided in the Search of the Borden House.**

**Her Words When She First Learned that She Was Suspected.**

NEW BEDFORD, Mass., June 14.—The Borden trial was opened promptly at 9 o'clock, every seat in the house being occupied. The first witness called was City Marshal Hilliard, of Fall River, who, being sworn, testified as follows after the usual preliminary questions had been asked and answered.

**MARSHAL HILLIARD'S STORY.**

"On the 4th of August last year my attention was called to the trouble at the Borden house by John Cunningham, news dealer. I sent Officer George W. Allen at once to the house. I did not notice the time accurately. I first went to the house about 8 o'clock.

"First I sent Allen, then Doherty, Mullaly, Medley, Gillon, Wilson and Fleet. When I got there I looked around the yard and searched the barn; the side door of the barn was open, the door on the left was closed, but I am not positive whether the window in the west wall was closed or not; I think the east window was closed.

"It was extremely warm in the barn. I only looked at one or two of the rooms in the house that day. The next day I went to the house with Mr. Marshall Hilliard, and corroborated the Marshal's testimony as to the conversation with the defendant.

The court excluded the evidence as to a demonstration against Mr. Morse, offered by the Government to show that the police later surrounded the house in good faith for protection, not participating in the benefits of the club-house at 10.55.

**COL. AINSWORTH IS DENIED.**

But the Ford's Theatre Inquest is at the same time Invalidated.

WASHINGTON, June 14.—The Supreme Court of this district this morning dismissed Col. Ainsworth's petition for a mandamus requiring the Deputy Coroner to allow him to be represented by counsel at the inquest over the Ford's Theatre disaster. The Court holds: First, that a Deputy Coroner is not a legal officer. This invalidates the inquest as far as held.

Second, that the right of a person to be present at an inquest in person or by counsel is discretionary with a Coroner, and therefore not a subject for mandamus.

**CLUB-HOUSE MAY BE CLOSED.**

Important Action of the Southern Society May Be Taken To-Night.

A meeting of the Southern Society will be held to-night at the club-house, 13 West Twenty-fifth street, which is sure to be of uncommon interest to the members, as a number of radical changes are to be proposed by the Executive Committee, and there is a strong likelihood that the club conditions and club comforts of the Society may be abolished.

The history of the Society for the past few years shows that the club features have not proved successful, and on the other hand the fulfillment of the Society's aims became an impossibility, and the organization in its sectional, historical and beneficial features suffered.

The members of the club-house numbered about 100 per cent. of the Society's membership. The great majority not participating in the benefits of the club-house have not been satisfied with the change.

From conversations with members it would seem as if the recommendations of the Committee are certain of adoption, and that the members of the club-house are on the eve of being closed.

**MICHIGAN VILLAGE BURNED.**

Alba, a Town of 800 Inhabitants, Wiped Out by Fire.

GRAND RAPIDS, Mich., June 14.—A special says that Alba, a village of 800 population in Antrim County, was totally destroyed by fire yesterday afternoon.

The fire started in Devrie's large saw-mill and licked up every business house except the Exchange Hotel.

The Grand Rapids and Indiana Depot and the Post-Office were burned. The wires are now down and no communication with the town can be had.

**Trial Trip of the Colonist.**

PROVIDENCE, R. I., June 14.—The Rogers syndicate cup-defender, who was stripped of his mittens yesterday, and it was feared to Wabaco, of Boston, for alterations. The boat will make her last trial trip next Tuesday.

The first trial trip was made on Thursday. It was produced and acted by witness.

Counsel explained that the piece was brought here last night and turned over to Borden. It was produced and acted by witness.

Witness said: "I received

**DR. GRIFFIN IS NEGLIGENT.**

**That Was Known, but Here Are More Illustrations.**

**Brooklyn's Health Endangered by Its Health Commissioner.**

Health Commissioner Griffin, of Brooklyn, who recently quarantined the tenement 155 Prospect street, because of small-pox, left the thirty-four inmates for six days without food, refused to allow the delivery of a wagon-load of provisions sent to the unfortunate people by "The Evening World," raised the quarantine before the period of contagion had expired, and wound up by submitting to Mayor Boody a "white-washing" report exonerating himself and his subordinates from all blame, is again accused of gross negligence in another small-pox case.

Through the negligence Sarah Kerrigan was allowed to return yesterday while still showing the traces of small-pox on her hands and face, is allowed to mingle with the other children in the neighborhood.

Some of the neighbors are very much wrought up over the state of affairs, as the block where the Kerrigans live is thickly populated with small children. The Kerrigan family had small-pox. No importance was attached to the fact, and after having the children and Mrs. Kerrigan removed, furnished the house, but did not quarantine it.

Some of the neighbors say that for a week previous to last Friday the Kerrigan family had small-pox. The Kerrigan family was known to have small-pox, and the people refused to patronize the same stores where the Kerrigans went.

The Board of Health was ignorant of the case.

Although the Kerrigan family were removed on Friday, Sarah, who also had small-pox, was allowed to return yesterday morning. Her return caused a good deal of excitement and struck terror to the hearts of the children in the street.

There are two families in Mr. Kerrigan's house, and his wife had employed a number of girls to make dresses. These girls were allowed to go to their homes by the Health Board after having their clothes disinfected.

Mr. Kerrigan was permitted to go and come at will. He did not have the disease.

The neighbors say that there was a similar case on Dean street a short time ago, where the children were permitted to mingle with their playmates before the time of contagion had expired.

The streets of the neighborhood of the Kerrigan house have felt the neglect of Health Commissioner Griffin, who is inefficient in his duties. He has driven away customers, it is said.

Another phase of Health Commissioner Griffin's inefficiency is illustrated at the corner of Schermerhorn and Bond streets, where for the past twenty-four hours the bodies of a man and a woman have lain in the street.

The neighborhood is thickly populated with small children. The bodies of the man and woman have lain in the street for the past twenty-four hours. The bodies of the man and woman have lain in the street for the past twenty-four hours.

The police say they have notified the Health Board.

**WANT THEIR MONEY.**

**Small Run Made on the Irving Savings Institution.**

**All Applications by Depositors Are Promptly Met.**

**The Alleged Defaulting Officers Not Yet Arrested.**

There was quite a run on the Irving Savings Institution, 96 Warren street, this morning, occasioned by the published announcement that a shortage of \$70,000 had been discovered in the accounts of these officers, recently deposed: President Clarence D. Heaton, Secretary William H. Buxton, and Paying Teller D. D. Tompkins.

During the first twenty minutes the bank was opened \$7,500 was paid out to nervous depositors, and their places were immediately taken by hundreds of others.

The bank officials felt no alarm, however, and announced that all who wanted their money could get it.

Neither of the three deposed officers had been arrested this morning, and at the District-Attorney's office it was said that there would be no arrests until Bank Superintendent Charles M. Preston had concluded his examination of the bank's affairs, which he began April 24.

When this examination is concluded the statement of Superintendent Preston will be laid before the Grand Jury, who will proceed to indict the parties who are considered have committed defaulting.

**THE NORSEMEN IN NEWPORT.**

**Escaped from Sing Sing.**

**Did He Dash Out Its Brains?**

**Dead Two Days When Found.**

**Builder Marshall, of Fordham, Accused of Cruelty to a Dog.**

**He Denies the Charge, but Is Held for Trial.**

**The Coroner Miled by a Mistake in the Child's Name.**

ALBANY, N. Y., June 14.—There was another escape from the prison this morning. George Carter, who escaped two weeks ago, has not been captured, and this morning's escape has completed the vexation of Warden Durston.

Frank Adams, who was serving a sentence of two years and a half, was the runaway to-day. He escaped at 7 A. M., and has not yet been recaptured.

The escape was not discovered until 10.30 o'clock. Adams was employed outside of the prison, working about the barns.

He had almost completed his sentence, and would have been released on Monday next.

As his term had not nearly expired, a vigilant watch was not kept upon him. No one supposed he would attempt to escape. When Adams was last seen, he was walking in the direction of Tarrytown. As soon as the news of the escape became known, guards were immediately dispatched to recapture him.

If recaptured Adams will have to serve out the six months' commutation which he secured by good behavior.

This makes four escapes within two months. Rohle and Pallister, the condemned murderers, having been the first two.

**A MOTHER'S UNNATURAL CRIME.**

**Farmer's Wife Takes Strychnine After Giving It to Her Children.**

SPOKANE, Wash., June 14.—James Rickard, a farmer, living at Paradise Prairie, fourteen miles south of Spokane, found his boy alone in the house crying when he returned home the other day.

He began a search for his wife and youngest child, and found them half a mile from the house in a wooded place. Returning home he found a bottle containing strychnine. The boy said that his mother had given it to him, and he had taken it, and then he had killed his sister, and then he had killed himself.

He did not like the taste of it and spit it out. His mother and sister then left the house, saying they were going to pick flowers.

A note of explanation was left by Mrs. Rickard, and no reason can be assigned for her act.

**DR. CHASE SENTENCED.**

**She Gets Nine Years and Eight Months.**

Dr. Sarah K. Chase was sentenced to the State Prison for Women at Auburn by Judge Marboe today to serve a term of nine years and eight months.

She was convicted of manslaughter for having caused the death of Margaret Manson, of Brooklyn, by neglect.

Mrs. Manson in her ante-mortem statement accused Florence Donovan, ex-Unionist, of poisoning her, having given her the money to pay for the operation.

**DECATUR LYCHERS IN THE TOILS.**

**Coroner Recommends that Three Men Be Held for the Grand Jury.**

DECATUR, Ill., June 14.—The Coroner's jury finished the investigation into the lynching of Bush yesterday morning.

The jury returned a verdict to the effect that Bush came to his death at the hands of a mob by hanging, and that Charles Britton, William Vest and Thomas Atterbury were participants in the crime. It was recommended that they be held for the Grand Jury.

**Deadly Butcher Cast Again.**

Patrick Quinn, thirteen years old, was run over by a bucaer's cart in front of his home, 330 East Twenty-fourth street, this morning, and was killed.

The body was taken to the Franciscan hospital, and the driver of the wagon, Henry Kramer, was arrested.

**OUR FLAG'S BIRTHDAY.**

**"Old Glory" Floats from House-tops and Public Buildings.**

**Patriotic Exercises Held in the Various Schools.**

**History of the Adoption and Changes in Liberty's Emblem.**

"Old Glory" is flying from a thousand house-tops in the city of New York to-day, and it ought to be displayed from every house in the land, for it is its birthday.

It was 136 years ago to-day that the Constitution, Congress adopted the Stars and Stripes as the emblem of the glorious union of free States.

Appropriately the day is set apart in the public schools of the country for a patriotic celebration, and it is safe to say that 100,000 little natives have declaimed the glory of their native land from the school-room platform to-day, and have a million "composition" have been written by as many little hands.

For the past six years all the schools of Massachusetts devote the day to patriotic exercises, and this year the American Patriotic League has undertaken the duty of urging upon all Americans to show their love of country by some mark to-day.

As a result of a circular address to the country the Stars and Stripes are flying in the towers today all over the land from Maine to California.

The Mayor ordered the flags up on the City Hall, and the City's colors are displayed gayly on the Custom-House, Post-Office, Large Office and every other public building in the city.

Some of the schools of the city are observing the day with special exercises, and the country's colors are everywhere. There is singing of National songs, recitations of patriotic poems, processions, presentations of flags and other ceremonies calculated to quicken the sense of the nation's debt to the glory of the native land, and to stimulate their love of country.

The Vikings Will See Our Best Society.

Neither of the three deposed officers had been arrested this morning, and at the District-Attorney's office it was said that there would be no arrests until Bank Superintendent Charles M. Preston had concluded his examination of the bank's affairs, which he began April 24.

When this examination is concluded the statement of Superintendent Preston will be laid before the Grand Jury, who will proceed to indict the parties who are considered have committed defaulting.

**OUR FLAG'S BIRTHDAY.**

**"Old Glory" Floats from House-tops and Public Buildings.**

**Patriotic Exercises Held in the Various Schools.**

**History of the Adoption and Changes in Liberty's Emblem.**

"Old Glory" is flying from a thousand house-tops in the city of New York to-day, and it ought to be displayed from every house in the land, for it is its birthday.

It was 136 years ago to-day that the Constitution, Congress adopted the Stars and Stripes as the emblem of the glorious union of free States.

Appropriately the day is set apart in the public schools of the country for a patriotic celebration, and it is safe to say that 100,000 little natives have declaimed the glory of their native land from the school-room platform to-day, and have a million "composition" have been written by as many little hands.

For the past six years all the schools of Massachusetts devote the day to patriotic exercises, and this year the American Patriotic League has undertaken the duty of urging upon all Americans to show their love of country by some mark to-day.

As a result of a circular address to the country the Stars and Stripes are flying in the towers today all over the land from Maine to California.

The Mayor ordered the flags up on the City Hall, and the City's colors are displayed gayly on the Custom-House, Post-Office, Large Office and every other public building in the city.

Some of the schools of the city are observing the day with special exercises, and the country's colors are everywhere. There is singing of National songs, recitations of patriotic poems, processions, presentations of flags and other ceremonies calculated to quicken the sense of the nation's debt to the glory of the native land, and to stimulate their love of country.
